Our Vision

By the completion of this expansion plan, **Ripuraj Group** aims to become **India's largest and most advanced rice processing company**, known for its trust, quality, and scale.

This vision represents our continuous effort to grow responsibly — increasing our capacity, improving our systems, and building stronger connections with farmers and consumers. Through this expansion, we aim to create more jobs, bring better opportunities to rural areas, and make premium-quality rice available to families across India.

With every new step, Ripuraj moves closer to a future where our name stands for excellence, growth, and care for the people who make our journey possible.

RIPURAJ BECOMES INDIA'S LARGEST RICE PROCESSOR COMPANY

Massive Processing Capacity

RIPURAJ will process 17 lakh metric tons of Basmati and Non-Basmati paddy every year establishing one of the largest production capacities in the country.

Our Ripuraj plant is uniquely positioned — with the National Highway on one side and Railway tracks on the other. Under the PM Gati Shakti Yojana, this location becomes even more powerful as we move towards establishing Private Railway Siding directly connected to our factory. This strategic integration will streamline both inward and outward logistics, ensuring faster, smoother, and more cost-efficient transportation. A rare geographical advantage that supports our growth and strengthens our supply chain.
